Section A1.1: Complaint cases logged and initial handling

This section presents information relating to the force's contact with customers and their initial handling of the complaint cases. It shows how long, on average, it takes from the customer's perspective from when they made the complaint and the force's performance of the initial handling from when it received the complaint.

Complaint cases with 'invalid dates' have been removed from timeliness measures. Please refer to the performance framework counting rules and calculations on the [IOPC website](#) for explanations of customer perspective, initial handling and invalid dates.

Section A1.2: Allegations logged - what has been complained about

This section presents information that shows what people complain about. Allegation categories capture the root of the dissatisfaction expressed in a complaint. A complaint case will contain one or more allegations and one category is selected for each allegation logged.

Please refer to our [Guidance on capturing data about police complaints](#) for guidance on logging allegations and complaint category definitions.

Due to some allegations not having a recorded category, the totals differ in the two tables.

Section A1.3: Allegations logged – what has been complained about – top five allegation categories and their subcategories

A complaint case will contain one or more allegations and one category (and sub-category, where available) is selected for each allegation logged.

Total % is of the total number of allegations logged.

Where the subcategory is 'None', this has been excluded from this table. For full counts please see section A1.2

This section presents information that shows what people are complaining about using a combination of allegation categories and factors. Categories capture the root of the dissatisfaction expressed in a complaint. Factors capture the situational context of the dissatisfaction expressed in a complaint. The combination of categories and factors provides a richer picture of what people are complaining about compared to the categories alone.

Each allegation should have a single category selected. However, multiple factors can be selected on a single allegation. Therefore, the sum of factors will not equal the total allegations logged in each category. Please refer to our [Guidance on capturing data about police complaints](#) for definitions of categories and factors.

Section A2: Allegations timeliness

This section presents the time it takes the force to finalise allegations by how they were handled. It gives a breakdown of allegations handled informally outside of Schedule 3 and those that were handled formally by either by investigation or handled other than by investigation. Timeliness is calculated from the date the allegation was received by the force.

Allegations with 'invalid dates' have been removed from the data shown. Please refer to the performance framework counting rules and calculations on the [IOPC website](https://www.iopc.gov.uk/) for an explanation of invalid dates.

Section A3.1: How allegations were handled and their decisions

This section presents a breakdown of how allegations were handled information and the decisions being given. An allegation decision is logged for each allegation finalised.

The allegation decision reflects how the complaint case has been handled, with different decisions available for the different means of handling. Both the allegation decisions and the subsequent actions available will depend on two things: firstly, whether the complaint case has been handled outside or under Schedule 3; and secondly, the means of handling where it has been dealt with under Schedule 3.

Please refer to our [Guidance on capturing data about police complaints](#) for details of allegation decisions.

How allegations were handled	Force No.	Force %	MSF Average No.	MSF Average %	National No.	National %

Total	1,746	100 %	1518	100 %	127,329	100 %

Please note that figures presented in these tables may be under-representing the number of allegations finalised under Schedule 3 and investigated (not subject to special procedures), instead grouping some of these allegations as finalised under Schedule 3 and not investigated. This is because police forces were not able to consistently and accurately collect this data on their systems until the implementation of an upgrade from November 2020.

Average number of working days to complete referrals by quarter

The figures presented in this section include all referrals that the force makes to the IOPC (received), not just those arising from complaints.

When the IOPC receives a referral from the force, it reviews the information they have provided. The IOPC decides whether the matter requires an investigation, and the type of investigation. Referrals may have been completed in a different period to when they were received.

Where a referral is made by the force on a mandatory basis but does not meet the mandatory referral criteria, the matter may not fall within the IOPC’s remit to assess and will be determined invalid.

The sum of decisions may not match the number of referrals completed. This is because some matters referred may have come to the attention of the appropriate authority before 1 February 2020 and have investigation type decisions of either managed or supervised.

Where a complaint has been recorded under Schedule 3 to the *Police Reform Act 2002*, the complainant has a right to apply for a review. A person can apply for review if they are unhappy with the way their complaint was handled, or with the outcome. This applies whether the complaint has been investigated by the appropriate authority or handled otherwise than by investigation (non-investigation). The application for a review will be considered either by the local policing body or the IOPC; the relevant review body depends on the circumstances of the complaint.

This section presents information about applications for review handled by both local policing bodies and the IOPC.

Information about the right of review and who is the relevant review body is available in [chapter 18 of the IOPC's Statutory Guidance on the police complaints system \(February 2020\)](#).

Reviews with 'invalid dates' have been removed from reviews timeliness. Please refer to the performance framework counting rules and calculations on the IOPC website for an explanation of invalid dates.

Section D3: Decisions on LPB reviews

This section presents information about the decisions made on reviews including the proportion of reviews that found the outcome of the complaint was not reasonable and proportionate, those which resulted in a recommendation and, if necessary, a direction to the appropriate authority in respect of any person serving with the police. This section presents information about what happened as a result of the allegation (action). Actions are captured at allegation level and multiple actions can be selected, where appropriate, on single allegation. The figures shown in this section are based on allegations on finalised complaint cases that resulted in the corresponding action. As more than one action can be selected for a single allegation, the sum of all percentages will not equal 100%.

The actions available once an allegation is finalised depend on how the complaint case has been handled. Please refer to our [Guidance on capturing data about police complaints](#) for details of actions available.

Please note: not all of the available actions arising from the complaint handling are shown. The actions presented in this section are those that focus on putting an issue right and preventing it from happening again by encouraging those involved to reflect on their actions and learn.

Notes

Data sources

- Data in this bulletin is taken from XML data submissions made by forces to the IOPC every quarter except for IOPC performance data which is taken from the IOPC case management system.
- Police force employee numbers are taken from the latest [police workforce England and Wales statistics](#) published by the Home Office.
- The most similar force (MSF) groups used for the calculation of the MSF averages in this bulletin are those determined by HMICFRS. Please note that the British Transport Police and City of London Police do not have an MSF group. A list of the MSF groups is available on the [IOPC website](#).
- Figures for City of London include complaint cases logged in relation to 'Action Fraud'. Action Fraud is the UK's national reporting centre for fraud and cybercrime. The service is run by the City of London Police, which is the national policing lead for economic crime.

Performance Framework counting rules and calculation

- The counting rules and calculations used to produce the data shown in this bulletin can be found on the [IOPC website](#).
- Average times are presented in working days and do not include weekends or bank holidays.
- Some percentages may add up to more or less than 100% due to rounding.
- Complaint cases and allegations with invalid start/end dates have been removed from average time calculations. Therefore, the numbers of complaint cases and allegations used in the average time calculations may be lower than the total number of complaint cases and allegations logged or finalised.

Data constraints

- The data is sourced from live case management systems and provides a snapshot of information as it was at that time. Therefore, there may be variances between the information in this bulletin and information reported at a later date.
