### **Section A1.1: Complaint cases and allegations logged**

A complaint case is formed of one or more allegations. Numbers per 1,000 employees are used to demonstrate how the number of complaints/allegations against a force compare to their most similar force group and national figures. The force should contact the complaint as soon as possible after the complaint has been raised. Average to log/contact is from the customer perspective. Note: Number of employees is a fixed number through the period, therefore complaints and allegations per 1,000 employees is higher for the full period (as in the table) than when broken down in to quarters (as per the charts)

Year to date	Complaint cases logged	Complaints per 1,000 employees	Allegations Logged	Allegations per 1,000 employees	Avera cont
Force	804	204	1,242	316

MSF Average	1,019	180	1,737	309	
National	45,593	179	80,142	314	

## **Section A1.2: Reason for complaints to be logged under Schedule 3**

Allegations should have an allegation category applied to them which will identify the root of what the allegation is about.

Forces can handle a complaint informally (known as Outside of Schedule 3), this should be used to deal with lower level complaints.

If a complaint is handled formally under Schedule 3, the force should record the reason why.

For more information on Schedule 3 of the Police Reform Act see here:

This section presents information that shows the situational context of the dissatisfaction expressed in a complaint.

Each allegation should have a single category selected. However, multiple factors can be selected on a single allegation. Therefore, the sum of factors will not equal the total allegations logged in each category and the percentages here will add up to over 100%. Please refer to our Guidance on capturing data about police complaints for definitions of categories and factors.

## Reporting Period: 01 April 2024 - 30 September 2024 (Q2 2024/25)

This section presents information that shows what people are complaining about using a combination of allegation categories and factors against the police force.

Categories capture the root of the dissatisfaction expressed in a complaint. Factors capture the situational context of the dissatisfaction expressed in a complaint.

The combination of categories and factors provides a richer picture of what people are complaining about compared to the categories alone.

Each allegation should have a single category selected. However, multiple factors can be selected on a single allegation. Therefore, the sum of factors will not equal the total allegations logged in each category. Please refer to our <u>Guidance on capturing data about police</u> <u>complaints</u> for definitions of categories and factors.

The table below shows a breakdown of allegations logged with the focus national complaint factors.

#### **Section A2: Allegations timeliness**

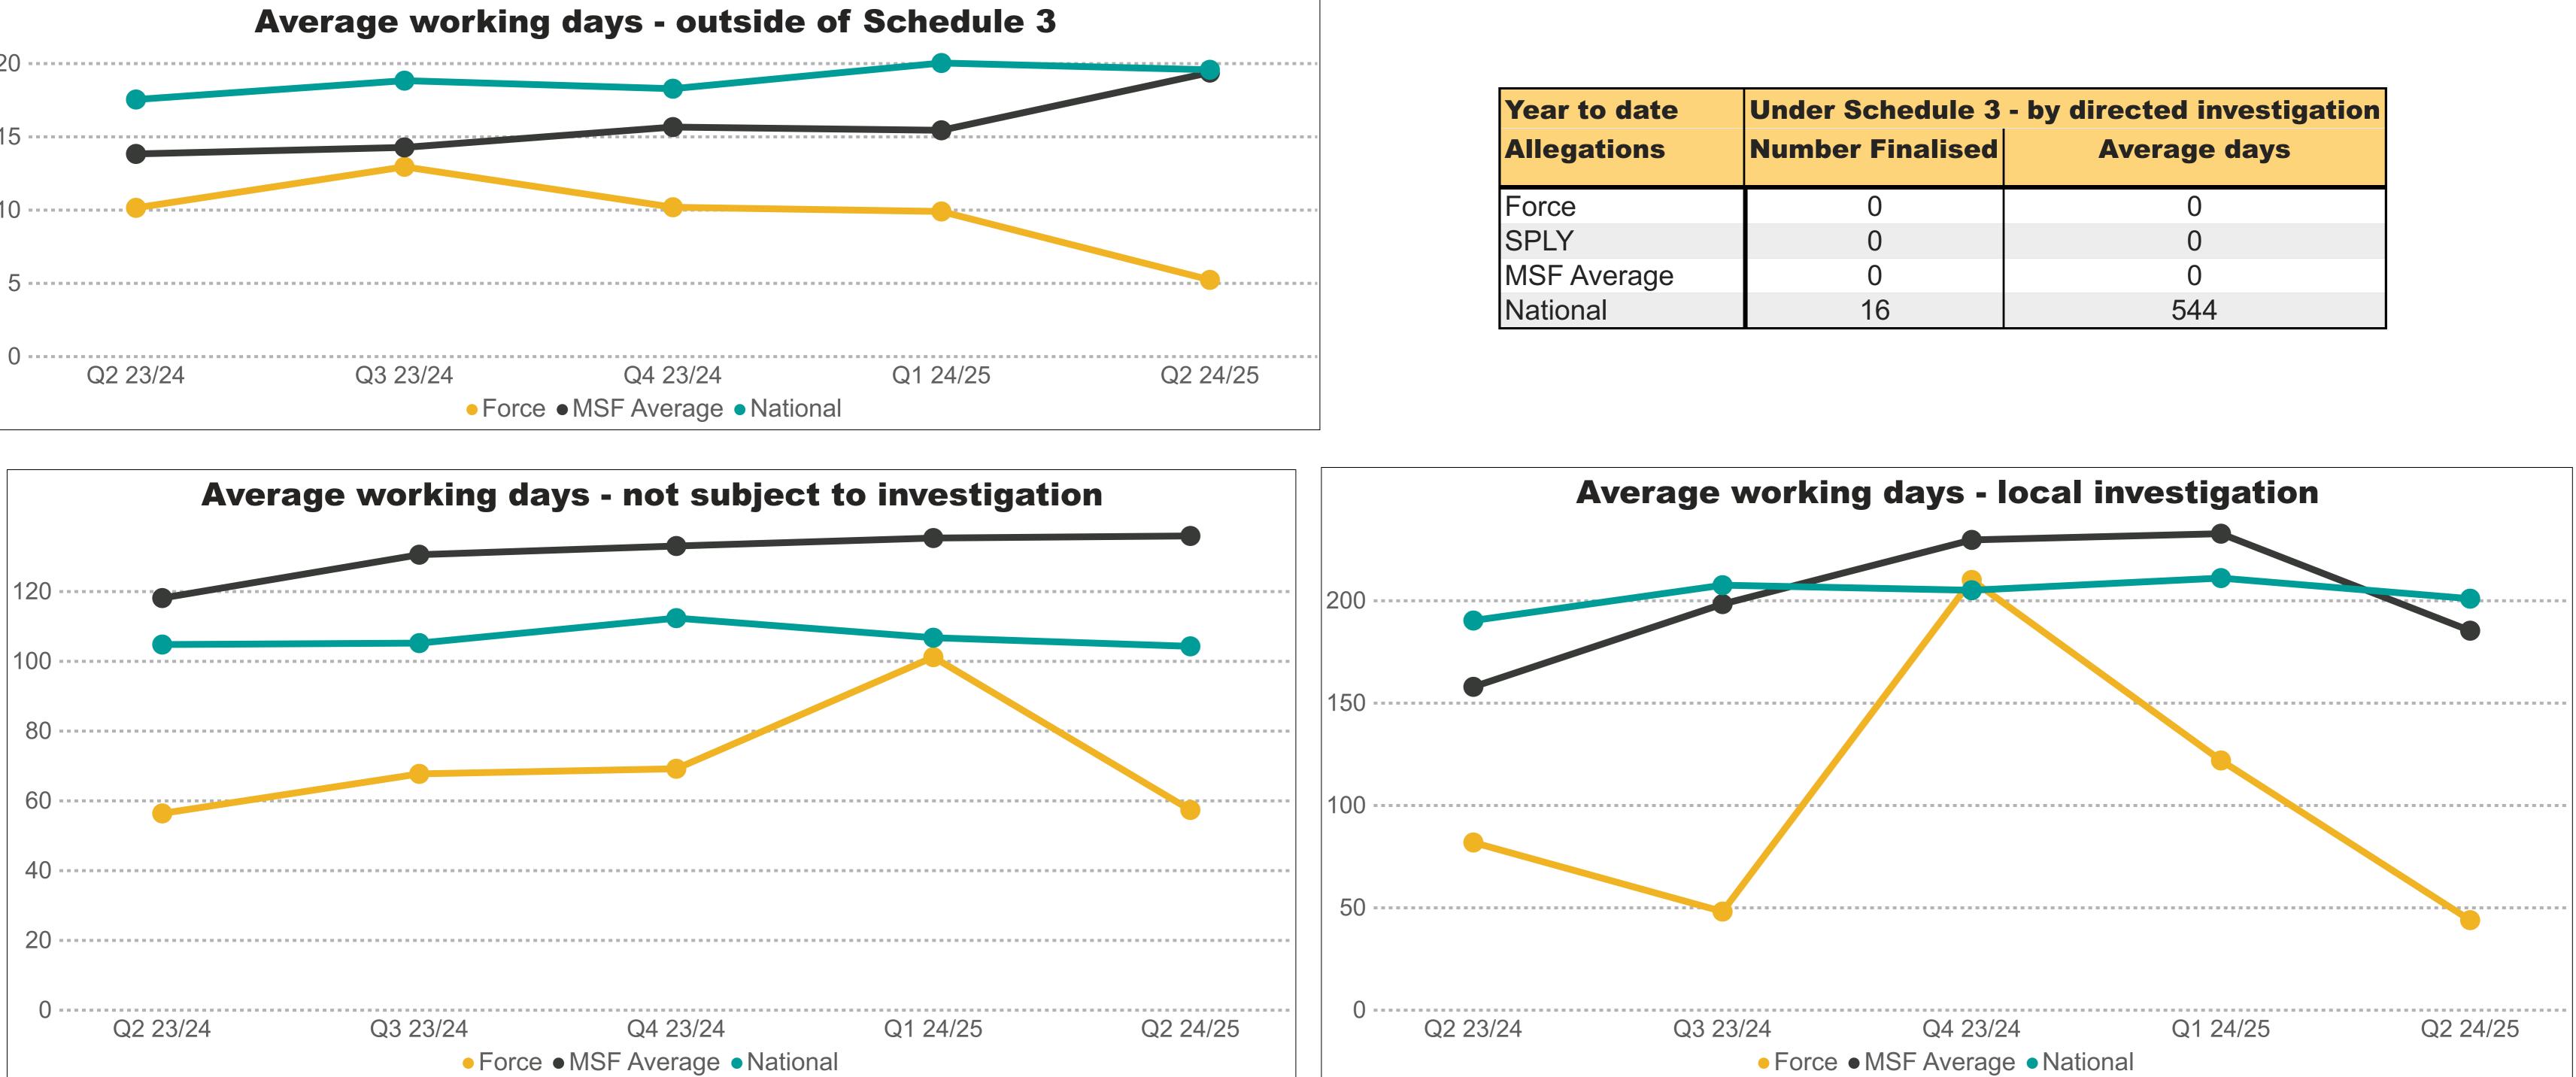

This section presents the time it takes the force to finalise allegations by how they were handled. It gives a breakdown of allegations handled informally outside of Schedule 3 and those that were handled formally by either by investigation or handled other than by investigation. Timeliness is calculated from the date the allegation was received by the force to the day the complainant is informed of the allegation decision.

Independent investigation figures do not include conduct or death/serious injury investigations which are also investigated by the IOPC.

Allegations with 'invalid dates' have been removed from the data shown. Please refer to the performance framework counting rules and calculations on the IOPC website for an explanation of invalid dates.

### **Section A3.1: How allegations were handled and their decisions**

This section presents a breakdown of how allegations were handled information and the decisions being given. An allegation decision is logged for each allegation finalised. The allegation decision reflects how the complaint case has been handled, with different means of handling. Both the allegation decisions and the subsequent actions available will depend on two things: firstly, whether the complaint case has been handled outside or under Schedule 3; and secondly, the means of handling where it has been dealt with under Schedule 3.

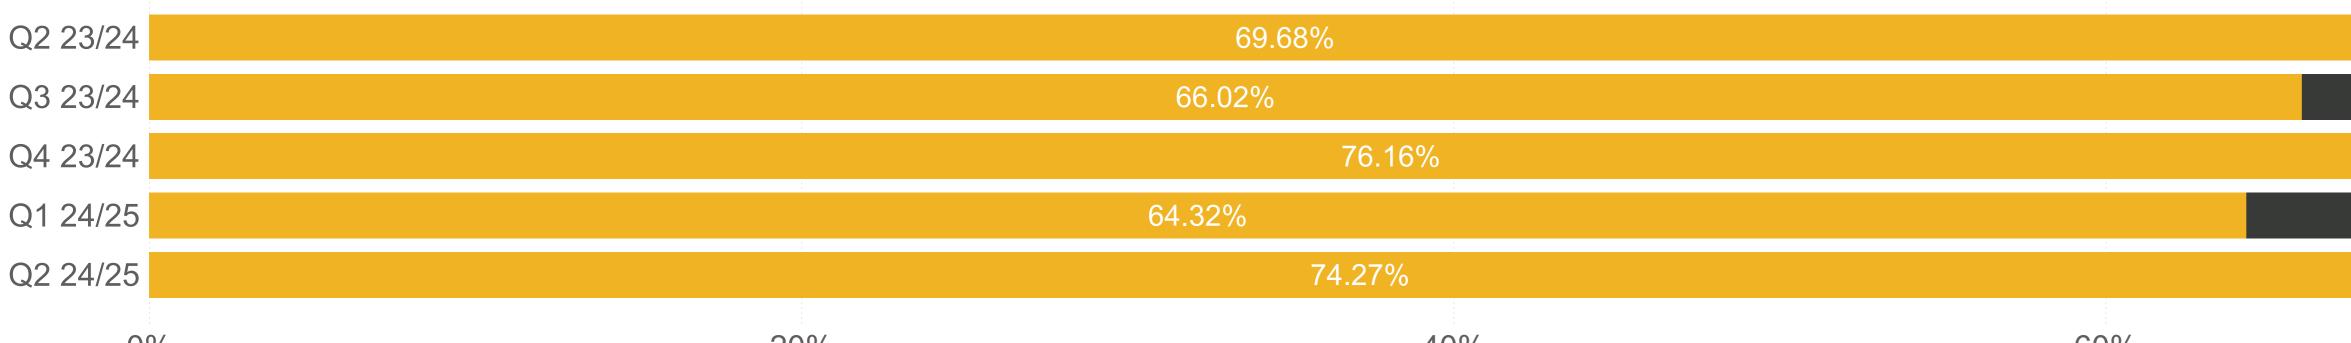

Please refer to our <u>Guidance on capturing data about police complaints</u> for details of allegation decisions.

#### Section B1.1: Allegation actions - on allegations handled outside of Schedule 3 (Year to date)

This section presents information about what happened as a result of the allegation level and multiple actions can be selected, where appropriate, on single allegation. The figures shown in this section are based on allegations on finalised complaint cases that resulted in the corresponding action. As more than one action can be selected for a single allegation, the sum of all percentages will not equal 100%.

The actions available once an allegation is finalised depend on how the complaint case has been handled. Please refer to our Guidance on capturing data about police complaints for details of actions available.

Please note: not all of the available actions arising from the complaint handling are shown. The actions presented in this section are those that focus on putting an issue right and preventing it from happening again by encouraging those involved to reflect on their actions and learn.

As more than one action can be selected for a single allegation, the sum of all percentages will not equal 100%.

#### **Section E: Referrals**

The figures presented in this section include all referrals that the force makes to the IOPC (received), not just those arising from complaints.

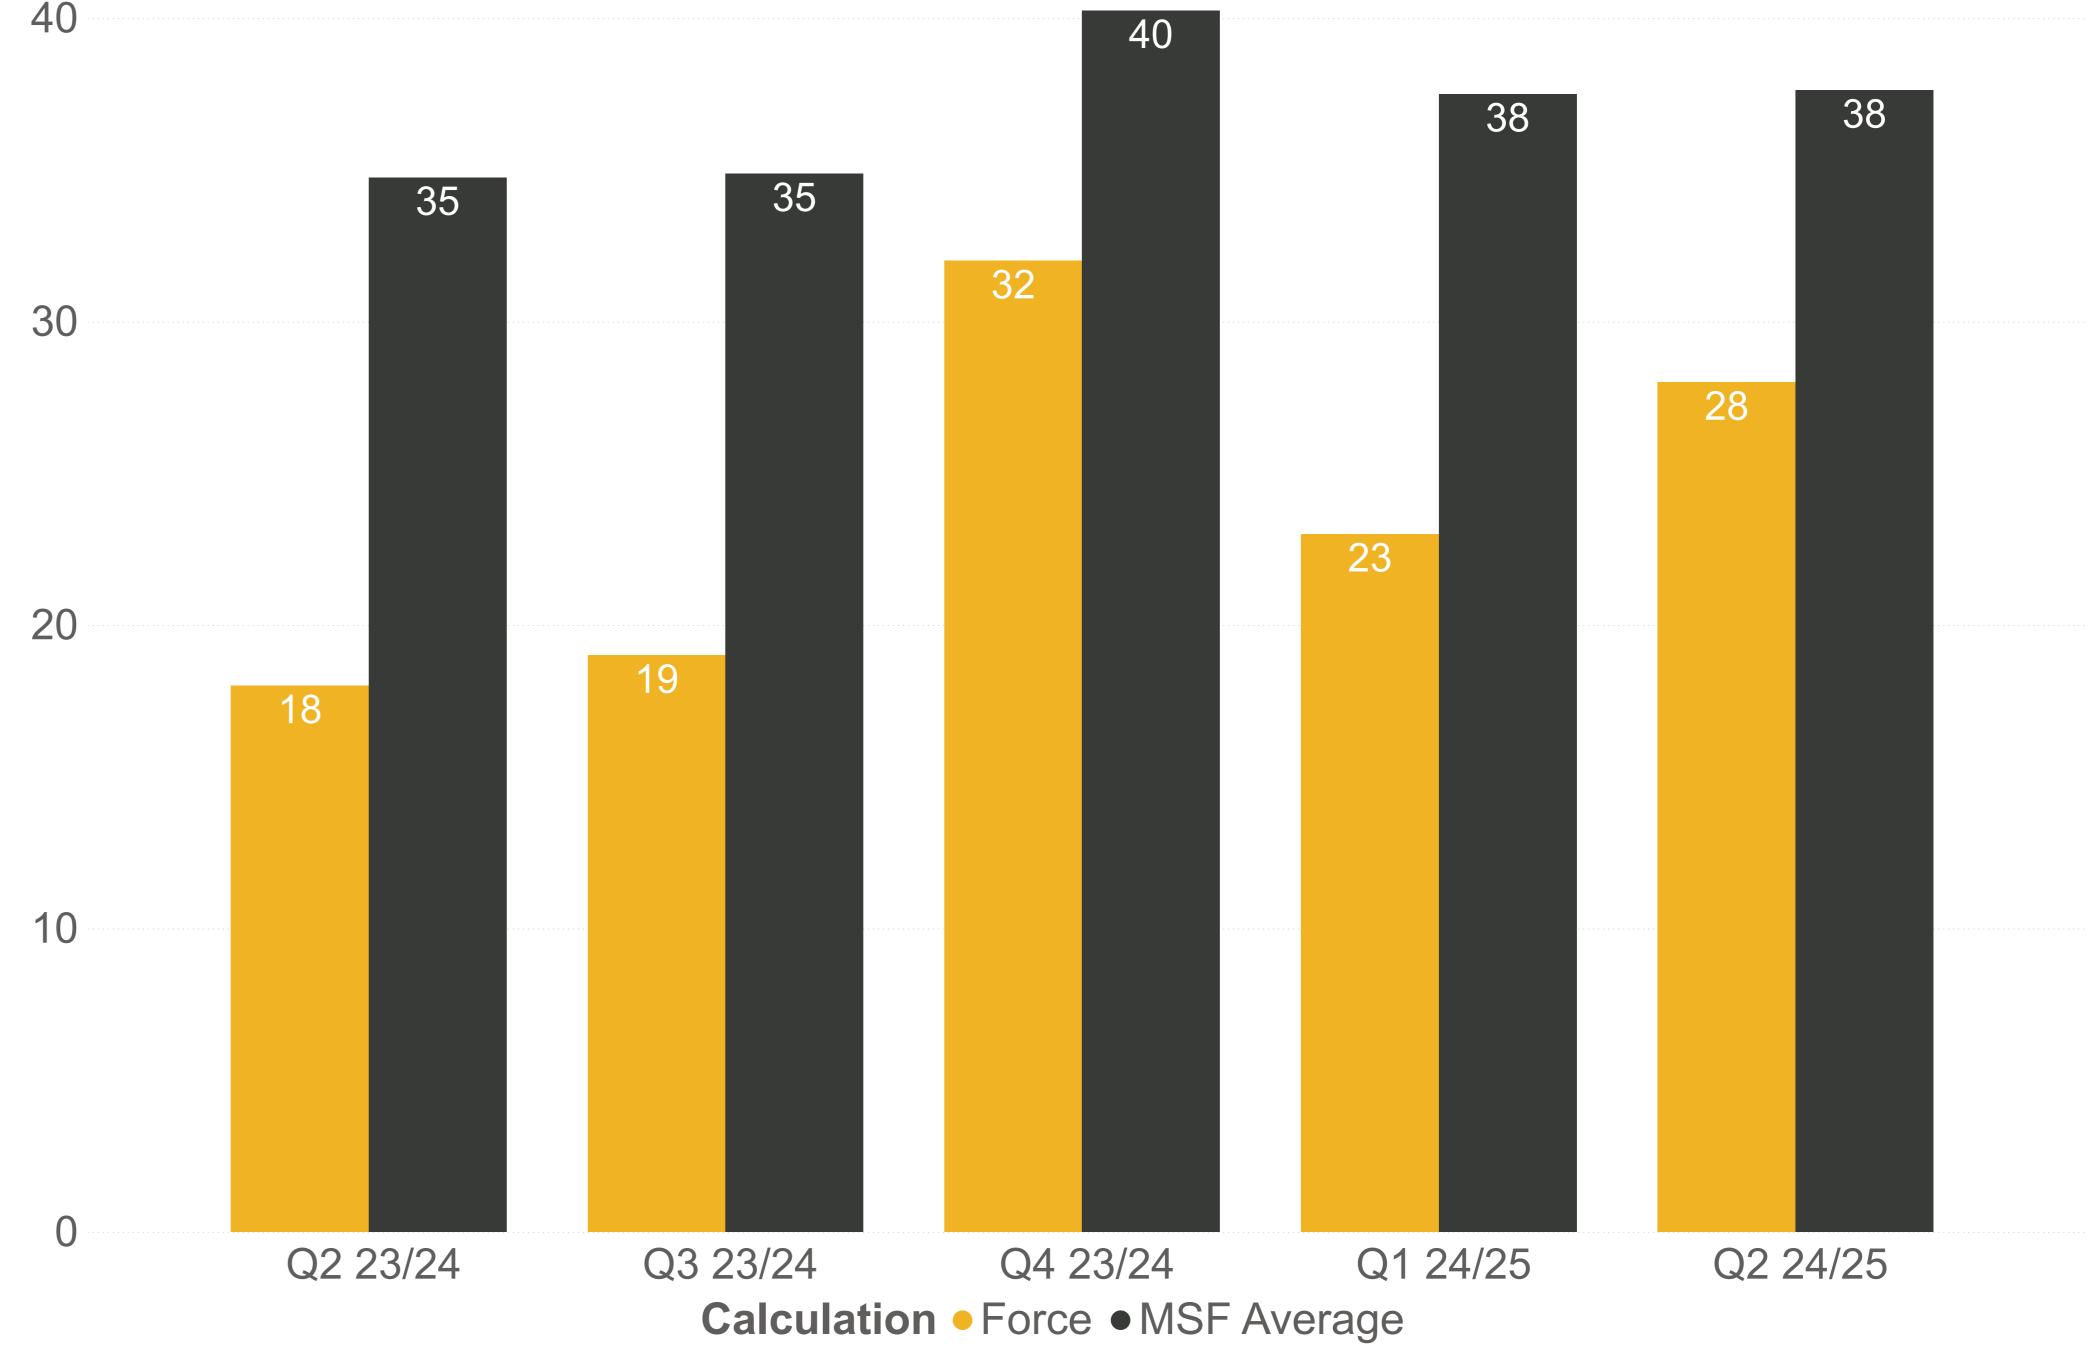

When the IOPC receives a referral from the force, it reviews the inform they have provided. The IOPC decides whether the matter requires an investigation, and the type of investigation.

Referrals may have been completed in a different period to when they received.

Where a referral is made by the force on a mandatory basis but does meet the mandatory referral criteria, the matter may not fall within the remit to assess and will be determined invalid.

The sum of decisions may not match the number of referrals completed is because some matters referred may have come to the attention of the appropriate authority before 1 February 2020 and have investigation type decisions of either managed or supervised.
