Good or bad, tell us about your experience

We're always looking to improve how we stop and search. You have the right to tell us about your experience by completing this short survey:

All feedback is kept anonymous and cannot be used to identify you. We use the reference number to match your feedback to your search. If you do not have a reference number you can include your name and date of birth. This is optional and will not be used to contact you.

Thank you for your time.

- **There's a new update on the Stop and Search app**
- **At the end of a stop and search a unique QR code will be displayed – when scanned, the person who has been stopped can fill in a feedback survey**
- **The survey tool has been developed as a de-escalation tool and a conversation starter**

The Stop and Search app on your mobility device has been updated with a new application.

When you've completed a stop and search, the person who has been stopped, now has the option to complete a short survey. At the end of your stop and search a QR code will be generated, they can scan the code and answer a couple of questions.
